

Professional Water Pumps

When it comes to protecting the life of your engine, ACDelco Water Pumps offer the heat control you need to keep things cool. Trust ACDelco Water Pumps to help protect your vehicle's vital systems.

WHY ACDELCO?

- Over 300 part numbers covering GM and Non-GM applications.
- ACDelco Water Pumps are designed to meet the same fit, form and function as original equipment water pumps

FEATURES & BENEFITS

- Gaskets, seals, and O-rings packaged in each ACDelco Water Pump Kit help guarantee that all necessary parts are available for trouble-free installation
- Thoroughly tested for reliable, leak-free performance
- Coated seals support seal longevity and durability
- Heat-treated shaft assemblies provide strength and durability over non-treated assemblies
- High quality bearings are permanently sealed and lubricated for durability and long life
- Uniform wall sections and smooth coolant-flow cavities for efficient operation
- Packaged for product protection during shipment

Top usage Part # 252-845

Please refer to the ACDelco electronic catalog for a complete list of ACDelco parts and applications

SIGNS OF WEAR

- Leaking coolant – puddle of coolant under the vehicle, a constant drip or stream of coolant from the pump's weep hole, or constantly empty or low coolant reservoir
- Engine overheating – engine may not be receiving the required coolant flow. Check for proper level of coolant.
- Visible component wear – worn seals, corrosion, pitting of pump components or a loose or wobbly pump shaft

Refer to the electronic parts catalog or acdelco.com for the most up-to-date applications and a complete list of parts.

Our most common Parts Warranty offers coverage on the majority of our Genuine GM Parts and ACDelco service replacement parts. Effective on parts purchased April 1, 2018 and later to the original retail purchaser. Contact seller for limited warranty part details, qualifications, and possible labor coverage.
