DURAMAX DIESEL

Maintenance Parts Guide OE

A modern legend was born in 2000 when General Motors introduced the Duramax 6.6L Turbo-Diesel engine for the 2001 Chevrolet Silverado 2500HD and GMC Sierra 2500HD trucks. Since then, the Duramax diesel family has grown to include the 1.6L I4 Turbo, the 2.8L I4 Turbo, and the 3.0L I6 Turbo for the 2019 and 2020 Chevrolet Silverado and GMC Sierra 1500LD trucks.

Refer to the electronic parts catalog or acdelco.com for the latest application and part number information.

At General Motors, our trusted lineup of engines and transmissions all undergo a rigorous validation process that includes thousands of hours of real-world testing in some of the harshest environments. This "tested-tough" process, coupled with our use of the latest technology and state-of-the-art powertrain testing facilities, results in an exceptional product you can rely on.

GM Genuine Parts and ACDelco Original Equipment (OE) parts appear in more than 2 million GM vehicles each year. The only two automotive part brands that offer the same Original Equipment used in GM vehicle production. This reference guide is to help readily identify routine service parts for Duramax engines.

DURAMAX DIESEL

OE

GM Genuine Parts OE DURAMAX TURBO CHARGERS

Only GM Genuine Parts are tested to meet GM Original Equipment standards and are designed specifically to fit your GM Duramax engine. Check the electronic parts catalog for the most up to date part# information.

L5P Turbo Charger

- Advances the Duramax legacy of variable-geometry boosting, creating more power in the engine
- Design enhances the capability of the exhaust-brake system
- New variable-vane turbocharger enables the engine to deliver more power with lower exhaust emissions
- Single stage, water cooled, variable geometry turbocharger (VGT) capable of producing 220 kPa (31.9 psi) boost pressure.

LM2 Turbo Charger

- Electrically actuated variable-geometry turbocharger automatically adjusts boost pressure and exhaust backpressure.
- Turbo is mounted close to engine exhaust outlet to help turbine "spool up" quicker and faster "light off" of the exhaust catalyst.
- Water-to-air intercooling system produces cooler, denser air charge for greater power

DURAMAX DIESEL

OE

GM Genuine Parts OE WATER PUMPS

GM Genuine Parts OE Water pumps are built to meet the latest manufacturer-specified designs.

L5P 6.6L

LH7 1.6L

LML 6.6L

LH7 1.6L (aux. pump)

- Uniform wall sections and smooth coolant-flow cavities for efficient operation
- Thoroughly tested for reliable, leak-free performance
- Coated seals with a stainless steel spring for durability
- Heat-treated impeller shafts supported by high-quality ball/roller bearings for smooth, reliable operation in virtually all conditions

An Engine Auxiliary Water Pump is used in some vehicles to pump engine coolant during certain operating conditions. While your engine's main water pump is mechanically driven and stops when the engine does, an auxiliary water pump is electric and able to circulate coolant after the engine is shut off, keeping coolant flowing to where it needs to go.

OE

GM Genuine Parts OE GLOW PLUGS

GM Original Equipment Glow Plugs are designed to give diesel engines the heat they need for cold starts

- Improves throttle response
- Reduces exhaust emissions
- Self-regulating to avoid overheating
- Full range of reaches – from 21mm to 40mm – to meet the chamber requirements in a wide variety of applications

GM Genuine Parts OE FUEL INJECTORS

GM Original Equipment New or Reman Diesel Fuel Injectors to provide maximum performance with fewer exhaust emissions.
Reman units include:

- Chrome plated control valve seats to match the OE design
- Key assemblies are 100% replaced, never reused
- Remaining components have been completely disassembled, cleaned and tested to specifications

*Reman fuel injectors are not available for purchase at GM Dealers

ACDelco OIL FILTERS

The GM recommended replacement filter for Duramax engines.

- ACDelco Oil Filter nylon core is one and a half times stronger than filters with metal cores
- Engineered with filtration to capture particulates as small as 30 microns
- Designed for OE filter change intervals OR synthetic oil drain intervals - whichever is longer

ACDelco ULTRAGUARD OIL FILTERS

The ACDelco ULTRAGUARD Oil Filter offers a premium alternative for ultimate protection.

- Designed to withstand five times greater force than most engine operating pressures, after oil reaches operating temperatures, for a longer life
- Equipped with 98% multi-pass filtering efficiency at 25-30 microns for outstanding filtering capabilities
- Spiral wound steel core tested which is 30% stronger than “straight locked” core designs

DURAMAX DIESEL

OE

LWI LAS NWI KAS

ACDelco ENGINE AIR FILTERS

ACDelco air filters supply the cleanest possible air with the least airflow restriction to diesel engines.

- **Excellent filter capacity, efficiency and flow management for enhanced performance**
- **Equipped with tight seals to keep unfiltered air from entering the combustion chamber**

ACDelco CABIN AIR FILTERS

ACDelco cabin air filters are a GM-recommended replacement for your vehicle's original component.

- **Uses electrostatic multi-layer inserts and can trap up to 95 percent of dirt, dust, pollen and other unwanted pollutants (down to 10 microns in size) from outside air that is pulled into the vehicle through the fresh air inlet**
- **Has a layered construction that creates "separated" media in order to better contain dust and pollen particles, resulting in higher efficiency**

ACDelco DEX-COOL COOLANT

ACDelco Dex-Cool Coolant is the GM recommended replacement for Duramax engines.

- 5-year/150,000-mile service interval
- Provides effective long-term corrosion protection for aluminum, brass, cast iron, steel solder and copper
- Improved water pump life
- Non-silicate formula retains excellent heat transfer characteristics
- Storage-stable for 8 years
- 100 percent biodegradable in its pure, unused form
- Compatible with conventional antifreeze

ACDelco GM OE DEXCOOL

ACDelco DIESEL EXHAUST FLUID (DEF)

ACDelco Diesel Exhaust Fluid is the GM recommended replacement for Duramax engines.

- The reducing agent system supplies the Selective Catalyst Reduction (SCR) stage of the vehicle's exhaust after treatment system with the Diesel Exhaust Fluid (DEF) required to reduce exhaust Oxides of Nitrogen (NOx) levels.
- Made from high-purity urea and deionized water
- Contains no chemical additives or other compounds that could cause Selective Catalyst Reduction (SCR) system failure
- Vented nozzle helps prevent glugging
- Stable, colorless, nonflammable, nontoxic and minimum risk for transportation
- Meets or exceeds OE manufacturer's specifications
- DEF usage will vary depending on: driving style, trailer towing, loaded vehicle weight, weather, idle time, PTO usage GSI Document ID: 4565305 #16-NA-244

ACDelco dexos 2™ 5W-30 SAE

ACDelco dexos 2™ is the GM full synthetic hybrid oil (gasoline and diesel).

- **ZIC D2 5W-30 Synthetic Engine Oil is formulated with synthetic base oils and advanced additive technology. This product is approved and licensed by GENERAL MOTORS COMPANY**
- **Meets all the stringent requirements of GENERAL MOTORS' dexos2™specifications GMW16095, Global Factory-Fill for diesel engines and GMW16177, Global Service-Fill for diesel engines, Regional Service-Fill for spark ignited engine**

DEXOS 2™ SAE-5W-30 Engine Oil -1 qt

ACDelco dexos D™ 0W-20

ACDelco dexos D™0W-20 is the GM recommended replacement **for light duty diesel engines.** dexos D™ is a **diesel only oil** that is currently only released for the 3.0L I-6 Turbo, **RPO LM2.**

- **Dexos diesel specification (dexos D™ 0W-20) was created using ACEA C5 as the foundation and includes GM oxidation and fuel economy tests.**
- **Specially formulated for small diesel engines**

DEXOS D™ SAE-0W-20 Engine Oil -1 qt

ACDelco 15W-40 CK-4

ACDelco 15W-40 is the GM recommended replacement for heavy duty diesel engines.

- **Specially formulated to operate in varying climates under varying loads and service conditions**
- **Excellent soot dispersal protects against soot-induced oil thickening and abrasive wear**
- **Excellent oxidation resistance helps to minimize deposit formation**
- **Low-ash formulation protects exhaust catalysts on low-emission engines and helps prolong DPF life**
- **Meets or exceeds the performance requirements of API Service Category CJ-4 and is approved under the latest OEM specifications of use in low-emission diesel engines**
