PHILIPS

Ultinon Essential
LED fog lights

# Stylish white light for fog lamps.

New!

## Philips Ultinon Essential **LED Fog Lights**

New Ultinon Essential LED fog lights provide a brilliant white beam, a stylish high-tech look, and tremendous value. With a color temperature of up to 6500 K, drivers get better contrast for improved driving safety.

A one-piece design, with integrated electronics and cooling fan in the light base, facilitates easy installation.

- Up to 6500 K color temperature
- Compact design that fits a wide range of car models
- Direct replacement for H7, H8/H16, H11, 9006, 9145 and PS24W halogen fog lights

Includes a pack of 2 fog lights.

# Philips Ultinon Essential
# **LED Fog Lights**

### Brilliant, precise white beam

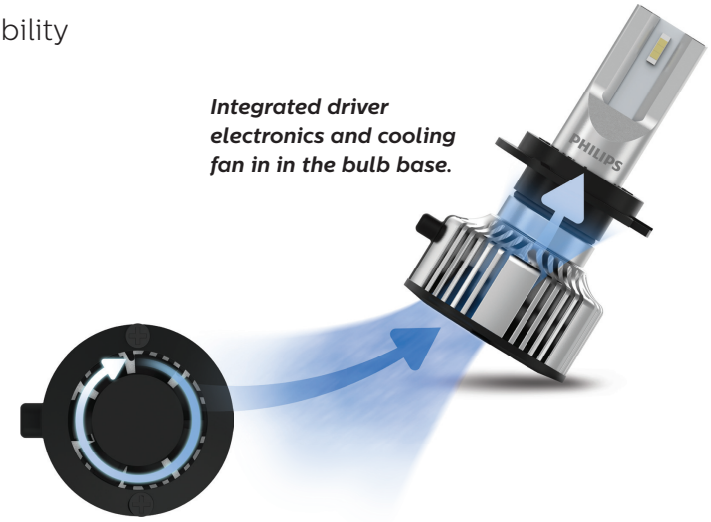
- Powerful bright white light provides enhanced visibility
- No glare to oncoming traffic for increased safety

### Best value for the money

- 12 and 24V compatibility
- Up to 1500 hours lifetime

### Long-lasting performance and durability

- Dual heat-dissipation: Aluminum heatsink and built-in fan disperse heat more effectively and efficiently to protect the electronics



*Integrated driver electronics and cooling fan in in the bulb base.*

### Available in:

H7
H8/H16
H11
9006
9145
LED-FOG PS24W†

Up to **6500 K** white light

Ultinon Essential LED fog lights

Standard halogen fog lights

**Troubleshooting tip:** Some vehicle CANbus systems have specific challenges with LED-based retrofit bulbs. They see the lower power consumption of LED bulbs as a sign of a burned-out bulb, which can cause dashboard warnings, high beam indications, or LED flickering.

Installing a Philips LED CANbus adapter is the ideal supplement for LED fog light bulbs. These unique Philips CANbus adapters ensure smooth functioning for any electrical issues. The adapter's waterproof connectors provide optimal performance in all conditions. Installation is easy and takes only minutes.
